NINETEEN-TWENTY completes the banner year of our service to the Western gardener. It was not an unusual year but rather another milestone in the steady growth which we have enjoyed. This growth can be attributed to three things: personality in handling your order, reliability of our seeds, and the fact that our prices have always been as low as is consistent with the Dependable Quality of our goods.

A satisfied customer is our best advertisement, and to carry out this precept we aim to send this catalogue only to localities where we know satisfactory results will be produced.

Compared with many seed books our catalogue is conservative, yet you will find listed herein practically every variety of seeds, bulbs and plants for which there is demand. Aside from listing the most improved varieties of garden seeds, this book gives such cultural directions as will aid the small city gardener to make an intelligent selection.

When in doubt make your selection from those items listed in black face type.

Tested Seeds We have a practical testing system and thus know the germination and purity of each variety we offer. We also procure the pedigree of each variety as far as possible. Thus we comply with the Pure Seed Laws and are determined to give satisfaction. If any of our Seeds, Bulbs, Poultry Supplies or other goods are not as we represent them, we will consider that you are doing us a favor by telling us about it.

Postage Prepaid On all Vegetable and Flower Seeds, Bulbs, Plants, etc., unless otherwise stated. The U. S. Mail delivers our seeds direct to your door. For Grass, Grain and Field Seeds, also other goods that are not priced "prepaid," see Parcel Post Schedule on inside back cover page.

Our Specialty is SEEDS IN BULK

Remittances You can send Draft, Money Order, Registered Letter or small amounts in clean postage stamps. Better not mail coin. If we cannot fill your order we refund the amount. Please use our printed Order Blank when possible.

Your Success! That's the height of our ambition, and we will go to extremes to make all transactions satisfactory, but you know that there are many causes why good seeds do not always make good crops, owing to weather, heat, cold, insects and other reasons beyond the control of planter and seedsman. We therefore cannot guarantee the crop nor give any warranty, express or implied, as to their growth, description, quality or productiveness; and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned in the original, unbroken package, and the purchase price will be refunded.

If any seeds do not prove as represented by us we will replace with more or other seeds.

We always give extra seeds free with mail orders for packets, ounces, etc.

Yours for success,

THE COLORADO SEED COMPANY.

President.

A Word About the Home Garden

Everyone who has a patch of ground in the back yard or a vacant lot near by should plant a garden this year.

Absolutely fresh vegetables will be just as hard to get this year as at any other time, and the prices in all probability will be no lower. In fact, vegetable and small fruit prices would have been much higher during the last few years had it not been for the War Gardens and Victory Gardens.

If you've never had a garden you've missed something. The juiciness of fresh garden peas, the sweetness of corn "from the garden to the kettle" and the real crispness of lettuce and radishes can be had only from your own garden.

Start Your Garden in Winter

Start your garden as soon as you get this catalogue. That does not mean to start digging with a spade, but to start on paper. Plan in advance. A little of this indoor gardening will enable you to have fresh vegetables throughout the summer. By referring to the chart in the middle of this book and to the diagram on next page you will see how the same ground will grow two or three successive crops.

In planning try to grow such things as are best adapted to the space you have. Plants of slow growth which occupy much ground—such as melons, cucumbers, squash, etc.—should be avoided in the small garden.

Likewise care should be taken to keep plants of high growth which cause heavy shade—such as corn—away from small sun-loving plants.

Plant What the Family Wants

Many times you want a sprig of parsley or a cluster of mint; some sage or other herb, when it is impossible to get them from your vegetable man or corner grocery. These are easily grown and should find a place in every garden.

Plant Dependable Seeds

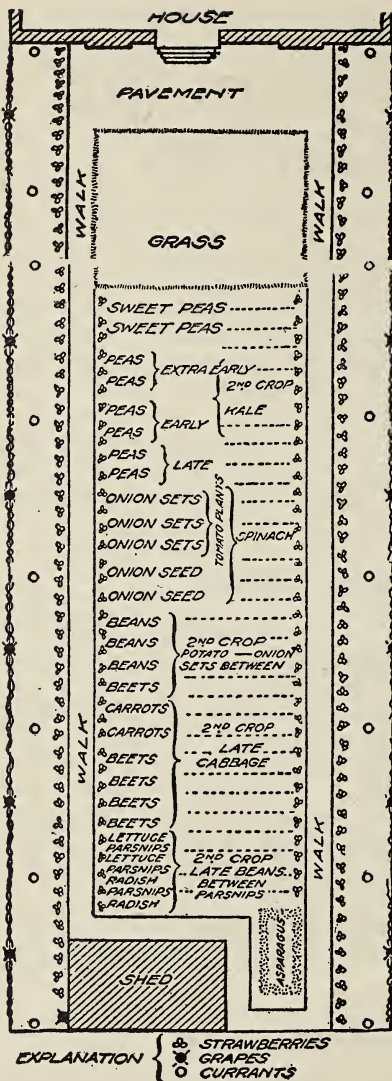

"Dependable Grade" is the trade mark under which most of our seeds and several of our poultry food mixtures are sold. While we endeavor to have all our seeds, bulbs, plants, etc., dependable and equal to representation in every respect, we have from time to time procured exceptionally choice strains of seeds which we put out under our special brand of **"Dependable Grade"**

Plan Early

The diagram on this page gives you a fair start on your plans. Get a sheet of paper, draw off the place to suit your own conditions, then lay out the rows on a small scale, say $\frac{1}{4}$ inch equals 1 foot.

By referring to the Planting Tables on pages 36 and 37 you can make your garden produce successive crops.

In the plan shown on this page all vegetables are planted in rows from the inside lateral rows of strawberries. As rapidly as each kind of peas mature and the crop is over, kale is planted in its place. The ground to be used for tomatoes is first planted to onion sets and these onions are used as rapidly as needed. When the time comes to set out tomatoes, some of the onions are dug to make space for the tomato plants. When the tomato crop is over, the ground is occupied by spinach as the third crop. Spinach is also planted as soon as the bulb onions from the side are gathered. The beans and peas are succeeded by late cabbage. Late onion sets can also be planted. Late beans are planted between the rows of parsnips.

Plant One or Two Fruit Trees and Some Strawberries

These Are Easy to Grow and Yield Year After Year
When Once Started

For your convenience we have put the leading varieties in **Black Face Type**. If you are in doubt, this will help you make a satisfactory selection.

REDUCED PRICE LIST OF GARDEN SEEDS

Brittle Wax

BEANS, GARDEN—Dwarf

½-lb. will plant 100 feet

Bush Beans should be planted about the last of May. The furrows should be at least two feet apart. A pound of wood ashes should be hoed into ever ten feet of furrow, leaving the furrow not more than an inch deep. Plant the Beans four inches apart in the furrow and cover them with an inch of soil. They come up in from one to two weeks, and the plants mature in from six to nine. Thorough tilling is essential; the ground must be kept soft. Thin the plants out to about five inches apart. Avoid handling or touching the vines in damp weather.

We pay postage on Beans.

GREEN PODDED VARIETIES

	Pkt.	¼-Lb.	Lb.	10 Lbs.
Stringless Green Pod , early, round pod.....	\$0.05	\$0.10	\$0.35	\$2.50

Black Wax , best black, very early.....	.05	.10	.35	2.50

Inoculating Bacteria will increase your bean crop. Trial size, 35c; garden size, ¼-acre, 75c; acre size, \$1.50. All postpaid.

POLE BEANS

Prepare the ground for Pole Beans exactly the same as for Bush Beans. The poles should be set up firmly, three feet apart, and five beans planted around each pole an inch deep, in a circle. Do not heap the earth around the pole; keep it flat. Plant Pole Beans at the same time as Bush Beans. They will mature a week or two later.

	Pkt.	¼-Lb.	Lb.	10 Lbs.
Kentucky Wonder (Old Homestead), early..	\$0.05	\$0.10	\$0.35	\$2.50
Lazy Wife, stringless, white, medium, late	.05	.10	.35	2.50
Kentucky Wonder Wax , long yellow pods..	.05	.10	.35	2.50
Early Jersey Lima, best early pole lima...	.05	.15	.40	3.25
Tall Horticultural, or Speckled Cranberry..	.05	.10	.35	2.50
Yard Long , or Asparagus Beans; pods are round like lead pencil, often 20 to 24 inches long; Japanese10	.40	1.35

For Field Beans, see page 47.

PEAS

2 lbs. will sow 100 feet

The furrow for Peas should be four inches deep. Sow the seeds 1 inch apart and cover with one inch of fine soil, thus leaving part of the furrow unfilled above them. This is to be filled gradually with fine soil as the plants grow, until the furrow is filled level with the ground. By this method, the sun can warm through the soil to the roots. Peas can be planted as soon as the frost is

Early Alaska

Dwarf Telephone

out of the ground; the rows should be two and a half feet apart. Plant the climbing varieties near a fence and train them on wire netting.

We pay all postage on Peas.

	Pkt.	¼-Lb.	Lb.	10 Lbs.
Alaska , extra early and very hardy, smooth.	\$0.05	\$0.10	\$0.30	\$2.50
Blue Bantam , early, dwarf, excellent quality05	.15	.40	3.50
Gradus , best early, large, wrinkled seed.05	.15	.40	3.25
Little Marvel , very dwarf and sweet.05	.15	.40	3.50

Everybearing , tall, late, long producer.05	.10	.35	2.75
Telephone , tall, large, late, big pods.05	.15	.40	3.00
Gray Sugar , edible brittle pods.05	.15	.45

Inoculating Bacteria for Peas—Trial size, 35c; garden size (¼-acre), 75c; acre size, \$1.50, postpaid.

For Field Peas, see page 47.

SWEET CORN

Golden Bantam

½-lb.
will plant
100 feet

Corn should be planted to the north of the garden, so as not to shade the other crops. It should not be planted in a very small garden unless it is the only crop to be raised. It needs shallow but continual tilling. Just after the middle of May is a good time to plant. The rows should be three feet apart, the kernels sown three together every six inches in the furrow. When the Corn is well started, pull out all but one stalk to each place. Keep the little shoots or suckers cut from around the roots. The ears are ready to pick when the silk is brown and the kernels on the tip are plump. Never touch the ears of growing corn; it is liable to spoil them.

We pay all postage on Corn.

	Pkt.	¼-Lb.	Lb.	10 Lbs.
Golden Bantam , very dwarf, sweet and early.	\$0.05	\$0.10	\$0.30	\$2.50
Bantam Evergreen , medium early and very sweet; hard to beat.05	.10	.30	2.50
Country Gentleman , medium, large, early.05	.10	.30	2.50
Stowell's Evergreen , large, late, sweet.05	.10	.25	2.25
Early Evergreen , medium.05	.10	.25	2.25
Mammoth White Cory , early.05	.10	.25	2.00
Early Minnesota , early.05	.10	.25	2.00
DeLue's Golden Giant Sweet Corn , large ears, low down, dwarf stalk; 2-oz. grower's sealed packet.25

ASPARAGUS

Asparagus is a slow grower, requiring at least three years to mature from seed, and is therefore not generally recommended to the small gardener. Usually unless one owns his home it is not a profitable undertaking, and we would recommend, unless you go into asparagus raising on a large scale, that you get the roots in preference to trying to raise from seed. Cultural leaflet on request.

	Pkt.	Oz.	¼-Lb.	Lb.
Early Giant Argenteuil , true green, best...	\$0.05	\$0.10	\$0.25	\$0.75
Columbian Mammoth White05	.10	.25	.75
Palmetto , large green, very popular.....	.05	.10	.25	.75

For Asparagus Roots, see page 29.

Book: Asparagus Culture, illustrated, 175 pages, 90c postpaid.

ARTICHOKES—French

Green Globe , large, blossoms are used...	\$0.10	\$0.75	\$2.25
--	--------	--------	--------	-------

For Jerusalem Artichoke tubers, see page 29.

BEETS—Table Varieties

Detroit Dark Red

The rows in which Beets are planted should be a foot apart. Along each row, in a furrow or small trench one inch deep, drop the seeds one or two inches apart; then cover with fine soil, pressing it down firm. Beets should be planted some time between the first of April and the first of June; they will be from a week to a month coming up, according to the weather. When the plants are about four inches high thin out to from three to four inches apart. The plants pulled up can be planted elsewhere. Strip their outside leaves off, and put the plants in holes deep enough to keep the roots from turning up. Beets should be ready for eating in from eight to twelve weeks. Keep the ground loose and well tilled.

2 ozs. for 100 ft. drill.

	Pkt.	Oz.	¼-Lb.	Lb.

Tall Green Curled, or Scotch, 2 to 3 ft...	.05	.20	.60	1.75

CAULIFLOWER

All our Danish Seed is growers' first quality sifted seed.

For the small garden we advise getting Cauliflower plants in preference to growing from seed. The cultivation is the same as that of Cabbage, except that Cauliflower favors even a moister soil. Proper tilling and watering effects this very much. Tie the long leaves together over the growing head to keep it white. Plants ready in April. For prices, see page 29.

Early Danish Perfection Snowball

Pkt. ¼-Oz. Oz. ¼-Lb.

Early Danish Perfection Snowball—Dependable Grade.

Positively nothing better for earliness and quality	\$0.15	\$0.75	\$2.25	\$7.50

Witloof (Brussels), true French Endive...	.10	.35	.90	2.50

For what to do each month of the year, see Gardener's Calendar, page 18.

CABBAGE

The best way to raise Cabbage in the small garden is from the plants. Cabbage requires an abundance of both moisture and tilling. It is also advisable to enrich the ground if possible. Fertilizer may be conserved by placing a small amount under each hill before plants are set. It will pay you to set out both early and late varieties. Set early Cabbage 18 inches apart in rows and two feet apart between rows. Late Cabbage two feet apart in rows and three feet apart between rows.

Copenhagen Market (Early)

Danish Roundhead (Late)

	Pkt.	Oz.	¼-Lb.	Lb.
Early Jersey Wakefield , select stock.....	\$0.05	\$0.25	\$0.80	\$2.50

For Cabbage Plants, see page 29.

CHINESE CABBAGE, OR CELERY CABBAGE

Is a distinct vegetable from our Cabbage. It grows upright, leaves are tied together to bleach. Resembles Romaine or Cos Lettuce.

Pkt., 10c; ½-Oz., 20c; Oz., 35c.

CUCUMBERS

Dig holes at least five feet apart. They should be a foot wide and five inches deep. Fill each hole to within an inch of the top with equal parts of sand and well-rotted stable manure thoroughly mixed. Scatter at least ten seeds in it, well apart, and cover them with half an inch of fine soil, pressing it down. From the middle to the last of May is planting time. Thin out to three plants to a hill.

	Pkt.	Oz.	¼-Lb.	Lb.
Klondike , white core, green skin, early....	0.05	\$0.15	\$0.40	\$1.25

Oxheart

Chantenay

Danvers

CARROTS

Furrows for Carrots should be fourteen inches apart and from a half-inch to an inch deep. The seed can be sown from mid-April to mid-May; it should be sown rather close, as Carrots do not germinate very well. Thin the plants out to four inches apart when they are four inches high. Soil for Carrots should be particularly well tilled before they are planted.

1 oz. for 100 ft. drill.

	Pkt.	Oz.	$\frac{1}{4}$ -Lb.	Lb.

White Belgian , for stock, large..... .05		.10	.25	.75

5 lbs. or more one variety Carrot seed, 10c per pound less, all postpaid.

CELERY

Celery, to be raised from the seed, requires almost expert care. It is better for those who are not practiced gardeners to buy Celery plants. These are set out about the first of June, a foot apart, and mature along the last of September or during the first two weeks of October. Celery is by nature a marsh plant, and the soil about it must be kept wet, especially when the plants are young. When they get to be about four inches high, shear off the tops; it makes the plant more stately. As the plants grow, gradually draw the earth up around them to keep the stalks white; by the end of fall all should be covered but the tops. A heavy paper wrapped around each stalk will insure tender, white plants. Keep the ground well loosened and cultivated; this is imperative on account of the moisture required by the plants. Celery is planted in rows that should be at least three feet apart. For plants see page 29.

LETTUCE—All Select

Grand Rapids

Big Boston

Lettuce will stand slight frosts, and is therefore one of the first things to plant, if the ground is well prepared; early April is not too soon. It can be planted up to the middle of July, and many prefer the later plantings. Place seed in trench half an inch deep, cover with fine soil to top of the trench and press the soil down. The plants should be up in about a week. If head varieties are wanted, thin out to four or five inches. The heads are usually well formed in ten weeks and should then be cut or they will rapidly go to seed, especially in hot weather. The rows of lettuce should be at least a foot apart. The quality of the lettuce depends on the tilling—keep the hoe busy. Cultural leaflet free. 1 oz. for 100 ft. row.

	Pkt.	Oz.	¼-Lb.	Lb.
*Los Angeles Market (Improved Iceberg), or New York Wonderful, mammoth heads, like small cabbages, bright green..	\$0.05	\$0.20	\$0.60	\$1.75

For French Endive, see Chicory.

EGG PLANT

Sow in hot-beds very early in the spring; thin them out as soon as big enough to be handled to 3 or 4 inches each way, and transplant to 2 or 3 feet apart in very rich, warm ground. Do not plant them outside till nights are real warm. Hoe often and hill up gradually till they blossom.

Improved Large Purple Spineless—Dependable Grade. This variety has superseded all others, both for market and home garden. Our stock is extra selected from the best grower in New Jersey. Pkt., 10c; ¼-oz., 20c; oz., 50c; ¼-lb., \$1.75.

Black Beauty, very dark color, a few days earlier than Large Purple, longer in shape. Pkt., 10c; ¼-oz., 20c; oz., 50c; ¼-lb., \$1.50.

MUSKMELON OR CANTALOUPE

Rocky Ford

Muskmelon planting and cultivation throughout are the same as those used in raising Cucumbers. It is considered rather delicate for northern latitudes, but with care can be successfully grown. Starting the plants in pots or small strawberry boxes indoors and then setting out after frost is over gives early production. The pleasure of raising them is worth the effort. 1 oz. for 50 hills. Leaflet free.

MUSHROOM SPAWN

Lambert's DIRECT Pure Culture Spawn, produced from tissue cultures invigorated by frequent reference to sport stock. Bricks weigh from 1¼ to 1½ lbs. and will spawn from 8 to 10 square feet of beds.

Cultural Leaflet free.

Per brick, 35c; 5 bricks, \$1.50, postpaid; by express or freight, 10 bricks, \$2.25; 25 bricks, \$4.75; 100 bricks, \$18.00.

Colorado Mountain Danvers

ONIONS—From Select Growers

Sow the seed as soon as the frost is out of the ground. The rows should be two feet apart, the furrows half an inch deep. Sow the seed close, pressing the soil down firmly on them. Thin the plants out to three inches apart. 1 oz. for 100-ft. row. Cultural leaflet free.

Maggots—When the little white maggots appear working in your Onions, apply "**Mag-o-tite**" as per directions on package. Better still is to use it as a preventive when seed or sets are sown. 2-lb. pkg., enough for 300 ft. drill, 40c; 4-lb. pkg., 70c; postage extra.

	Pkt.	Oz.	¼-Lb.	Lb.

White Velvet, or Creole, long pods	\$0.05	\$0.10	\$0.20	\$0.60
Early Dwarf Green, light green pods05	.10	.20	.60

PARSNIPS

General culture for Parsnips is the same as for Beets, except a light or slightly sandy soil is best. May be left in ground through winter. 1 oz. for 100-ft. row.

	Pkt.	Oz.	¼-Lb.	Lb.
Hollow Crown, the standard, smooth	\$0.05	\$0.10	\$0.20	\$0.60

Ruby King

PEPPER

Peppers, like Tomatoes, should be planted in a window garden about the first of March. They are grown and transplanted exactly like Tomatoes, but the plants can be placed nearer one another in the ground, say two feet apart, in rows two and a half feet apart. A dozen good healthy Pepper plants will supply the average family. The plants should be set in rows three feet apart and two feet apart in the rows.

	Pkt.	¼-Oz.	Oz.	¼-Lb.
Ruby Giant, large, deep red, very mild	\$0.10	\$0.20	\$0.50	\$1.75
Ruby King, large, excellent for mangoes ..	.10	.20	.50	1.75
Sweet Mango, used when green10	.20	.50
Chinese Giant, extra large, thick flesh10	.20	.60	2.00
Golden Dawn, yellow flesh05	.15	.40	1.25
Long Red Cayenne, slender, very hot10	.20	.50	1.75
Celestial, small, ornamental10	.20	.60	2.00

For Pepper Plants, see page 29.

PIMIENTO PEPPER

A new variety of Pepper that is not pungent. Especially desirable in canning, in pickles, etc. Is red and smooth like an apple. Thick skin. Easy to grow. Packet, 10c; ¼-oz., 20c; oz., 50c.

PARSLEY

Parsley seeds are sown in a drill in the spring. The plants will die down in the fall and if protected with mulch will put out fresh foliage the next spring. Should be replanted every two years.

	Pkt.	Oz.	¼-Lb.	Lb.
Champion Triple, or Moss Curled	\$0.05	\$0.10	\$0.30	\$0.90
New Emerald, dwarf, compact growth05	.10	.30	.90
English Perfecta, very dwarf and curly05	.15	.45	1.30
Turnip Rooted, or Hamburg, for soups05	.10	.30	1.00

RADISHES

Radishes can be planted very early—as soon as the ground can be worked and no danger of frost. The rows should be from eight inches to a foot apart; the furrows for the seeds about half an inch deep; and the seeds, when dropped into the furrow, about an inch apart. Press fine soil down over them to the depth of the furrow. As the plants grow, thin them out like beets. Radishes mature, depending on the kind, in from four to six weeks; the turnip-shaped ones are the earlier. 1 oz. for 100 ft. row.

Chartier

Non Plus Ultra

	Pkt.	Oz.	¼-Lb.	Lb.
Non Plus Ultra (Fireball), Danish, forcing ..	\$0.05	\$0.15	\$0.45	\$1.25
Early Scarlet Erfurt, French, forcing05	.15	.45	1.25
Johnson's Perfection, early, round, scarlet, white tipped, very attractive, English ..	.05	.15	.45	1.25
Early Scarlet Globe, fine for forcing05	.10	.30	1.00
Early Scarlet Turnip, White Tipped, beauty	.05	.10	.30	1.00
Early Scarlet Turnip, round red05	.10	.30	.90
Crimson Giant, early, very large, oval05	.10	.30	.90
French Breakfast, half long, early. This is a specialty with us and at very low price	.05	.10	.25	.80
Chartier, long red with white tip05	.10	.30	.90
Glass, or Cincinnati Market, long05	.10	.30	.90
Long Scarlet Short Top, bright scarlet05	.10	.30	.90
Iceberg, select strain, white, long, crisp05	.10	.30	.90
Long White Vienna, or Lady Finger04	.10	.25	.75
Giant White Stuttgart, late, large05	.15	.45	1.25
China Rose, for winter, keeps well05	.15	.45	1.25
Celestial, or California Mammoth White05	.15	.45	1.25
Round Black Spanish, for winter use05	.15	.45	1.25
Long Black Spanish, for winter use05	.15	.45	1.25
Japanese Mammoth, Sakurashima, large white, good keeper05	.20	.60	1.75

Use "Mag-o-tite" Powder with your sowing of Radish seed. It keeps away the maggots.

Sugar Pumpkin

Kentucky Field, large, flat, yellow. Pkt., 5c; oz., 10c; ¼-lb., 25c; lb., 80c.

Large Yellow Field, common field variety. Pkt., 5c; oz., 10c; ¼-lb., 25c; lb., 80c.

PUMPKIN

The culture of Pumpkin is similar to Winter Squash. 1 oz. for 30 hills.

Small Sugar, or New England Pie, early. Pkt., 5c; oz., 10c; ¼-lb., 30c; lb., \$1.00.

Large Cheese, flat, yellow, orange skin. Pkt., 5c; oz., 10c; ¼-lb., 30c; lb., \$1.00.

Mammoth Tours, or Jumbo, very large. Pkt., 5c; oz., 15c; ¼-lb., 50c; lb., \$1.50.

Japanese Pie, crookneck, small one end. Pkt., 5c; oz., 10c; ¼-lb., 30c; lb., \$1.00.

RHUBARD, OR PIE PLANT

Like Asparagus and Celery, Rhubarb is best bought by non-professional gardeners in the form of roots. These are set out in the early spring, three feet apart in the furrow, and in rows three feet apart. Provided there is no standing water, Rhubarb grows well on almost any kind of soil, under ordinary cultivation. Roots ready in spring and late fall.

	Pkt.	Oz.	¼-Lb.	Lb.
Linnaeus, small early, very tender.....	\$0.05	\$0.15	\$0.50	\$1.50
Victoria , large, standard market variety...	.05	.15	.50	1.50

Rhubarb Roots—Either variety, 15c to 25c each, according to size, postpaid. For larger quantities see page 29.

Book: New Rhubarb Culture, 130 pages, illustrated, 90c, postpaid.

SPINACH

It is best to sow Spinach as early in the spring as possible without danger of hard frost, because if it is not cut before the hot weather it will toughen and spoil. It should be a fertile soil. 1 oz. for 50-ft. row.

	Pkt.	Oz.	¼-Lb.	Lb.
Long Standing , large smooth leaves..	\$0.04	\$0.10	\$0.20	\$0.50
Large Thick-Leaved Viroflay , curly..	.04	.10	.20	.50
Victoria , heavy foliage, dark green leaf, Savoy variety, keeps well...	.04	.10	.20	.50
New Zealand, extra large leaf, tall..	.05	.10	.30	.90
Japanese Prickly03	.10	.20	.30

10-pound lots or more one variety of Spinach, deduct 10c per pound; we pay postage. If not postpaid, deduct 15c per pound.

SALSIFY, OR VEGETABLE OYSTER PLANT

Easily cultivated, stays in ground over winter. Should be in every garden.

Mammoth Sandwich Island, best....\$0.05 \$0.25 \$0.75 \$2.00

Salsify

TOBACCO

Havana\$0.10° \$0.50

SQUASH

The Squash is first cousin to the Cucumber, and should be planted and raised in the same manner. Squash, however, is usually planted later. The bush summer varieties of Squash can be planted five feet apart, but the running winter varieties should be eight to ten. 1 oz. for 40 hills.

	Pkt.	Oz.	White Bush 1/4-Lb.	Lb.
Yellow Summer Crookneck , bush, early....	\$0.05	\$0.15	\$0.40	\$1.25
White Bush Scalloped (Patty-Pan), early..	.05	.15	.40	1.25
Fordhook , bush, for late summer, yellow..	.05	.15	.50	1.50
Long Vegetable Marrow (true English)...	.05	.20	.60	1.75
Prolific Marrow , a standard fall variety...	.03	.10	.25	.75

WINTER SQUASH

1 oz. for 20 hills

	Pkt.	Oz.	1/4-Lb.	Lb.
Hubbard , standard for winter.....	\$0.05	\$0.15	\$0.50	\$1.50
Banana , a grand new variety for late fall and winter use, dark green, banana shape, 20 to 25 inches long.....	.05	.20	.60	1.75
Sibley , or Pike's Peak , pear-shaped, late..	.05	.15	.50	1.50
Delicious , orange color flesh, for winter...	.05	.15	.50	1.50
Essex Hybrid , flat ends, for winter.....	.03	.10	.25	.75
Boston Marrow , orange color flesh, fall....	.03	.10	.25	.75
Mammoth Chili , orange color, very large...	.05	.15	.50	1.50

If troubled with Squash Bugs, use Hammond's Slug Shot or "Sure-Noxem."

Book: Squashes, by Gregory, 30c, postpaid.

TURNIP

Plant Turnips between the first of May and the last of July, in rows a foot apart. A quarter-inch of soil is enough to cover the seed. The plants should be thinned out to about five inches apart. Late Turnips are generally considered the best. They should be taken out before the first heavy frost in the fall, and can be packed in boxes of sand to keep all winter. 1 oz. for 150-ft. row.

White Egg

	Pkt.	Oz.	1/4-Lb.	Lb.
Extra Early White Milan , — flat, very early.....	\$0.05	\$0.15	\$0.50	\$1.50
Extra Early Purple Top Mi- lan , extra early.....	.05	.15	.50	1.50
Purple Top Strap Leaf , flat, standard05	.10	.25	.65
Early White Flat Dutch , good for early.....	.05	.10	.25	.65
White Egg , oval shape, pure white, the most popular fall and winter variety in this market, keeps well	.05	.10	.25	.75
Red Top Globe , Mammoth, heavy producer05	.10	.25	.75
Amber Globe , late, large, yellow color04	.10	.20	.60
Pomeranian White Globe , late, large05	.10	.20	.65
Yellow Aberdeen , large, late, resembles Ruta-Baga04	.10	.20	.65

Five pounds or more any one variety Turnip or Ruta-Baga, deduct 10c per pound. We pay postage.

RUTA-BAGAS

Often known as Swedish Turnips. Can be successfully grown almost anywhere and should be more extensively cultivated. Excellent table food and great stock food. Keep in cellar all winter. 1 oz. for 150-ft. row.

Purple Top Yellow—Our seed is the Danish Bangholm stock, which is very superior to American grown. Pkt., 5c; oz., 10c; ¼-lb., 25c; lb., 75c.

TOMATOES

John Baer

Tomatoes are planted indoors in a window garden about the first of March. When the third leaf of a plant has formed, put the plant into a three-inch pot or box. After all danger of frost is over the plants may be set in the ground. Do not plant Tomatoes within three feet of any other crop. Dig holes three feet apart and deep enough to allow placing the plant an inch or two deeper than it was in the pot. Cover the top of the pot with your fingers, holding the stem of the plant between them; then turn the pot upside down, tapping it with a trowel or other tool, when the plant will easily come out. Place it in the ground, pressing fine earth around it; if the earth is dry, water it as soon as the plants are set. Some people, before transplanting Tomatoes, put a narrow ring of heavy paper loosely around the plant, just at the top of the soil, to keep off cutworms. June 1st is the usual time for transplanting in northern latitudes. Tie the growing plants to stakes. We will have plants ready in May and June. See page 29.

	Pkt.	Oz.	¼-Lb.	Lb.
The Burbank Tomato —Burbank's own production, famed for uniform size, solidity and productiveness; seed direct from Santa Rosa, per original pkt.....	\$0.15

THE GARDENER'S CALENDAR

FOR EACH MONTH OF THE YEAR

January The month of planning. Study your seed catalog. Make your garden and flower-bed on paper, then order your seeds. Note carefully the height, time of blooming and color of each plant. Examine fruit trees for tent-caterpillars. Infected twigs should be cut off and burned.

February Trees should be moved in February and March. Cuttings from geraniums and other plants for summer bedding should be made. If seeds of certain perennials and biennials are sown in boxes, some of them will bloom this summer. The seed-boxes should be covered with a wet cloth and supplied with gentle heat from beneath.

March Plant sweet peas on St. Patrick's Day. Remove covering gradually from bulb-beds and perennials as the weather becomes favorable. All pruning should be finished before the sap rises. Sow seed of some of the old-fashioned flowers indoors this month to be set out May 15 to June 1.

Ageratum	Marigolds	Petunias	Snapdragon	Verbena
Asters	Pinks	Salvia	Stocks	Zinnias

April This is the gardener's busy month. Plant shrubs and trees while still dormant. Dahlia roots may be separated and started in damp sand. Gladiolas, for early blooms, may be planted outdoors toward last of the month. Hardy plants, such as pansies, may be transplanted from the seed-boxes to the open border and hardy annuals, such as candytuft and mignonette, sown outdoors. All seeds listed for March if not already sown may still be sown in boxes, also the following:

Alyssum	Cosmos	Larkspur	Phlox
Calendula	Coxcomb	Nicotiana	Salpiglossis

Sweet peas may still be sown out of doors.

May All the hardy plants are now up and the winter covering of fertilizer should be worked in about them. All except the most tender seedlings may be bedded out and the sowing of annuals finished. After May 15 the following may be sown:

Bachelor Button	Chrysanthemums (An.)	Morning Glory	Poppy
California Poppy	Cosmos	Nasturtiums	Portulaca
Candytuft	Marigold	Petunias	Sweet Alyssum

Do not plant sweet corn and cucumbers and melons till last of month.

Cutworms and slugs appear in May.

June Finish bedding the tender seedlings, the geraniums, coleus and cannas. Dahlias should all be planted by the first week and a second planting of gladiolas made. Stake plants liable to break, and make trellis for sweet pea vines. Keep the hoe busy and use the sprayer freely.

July Keep after the weeds and insects. (See insect table in middle of this book.) Plant perennials for next summer's bloom. The following are easily grown:

Canterbury Bells	Delphinium	Gallardia	Oriental Poppies
Columbine	Digitalis (Fox glove)	Gypsophila	Shasta Daisies

August Keep seed pods and fading flowers cut. Set out your Iris bulbs or divide the old clumps if they are crowded or old. Oriental poppies are now dormant and may be moved. Occasionally flood your dahlias with water and mulch lawn with clippings.

September Killing frosts often come this month. Dahlias, gladiolas and cannas should be allowed to ripen after the tops are blackened. The following early-blooming perennial plants should be put out in September. Make your selection from the special catalog you will get this month:

Bleeding Heart	Columbine	Hollyhocks	Peonies
Canterbury Bells	Fox Glove	Iris	Phlox

Hardy ferns and shrubs may be moved with safety. Among them are:

Bush Honeysuckle	Lilacs	Snowball	Spireas
------------------	--------	----------	---------

The following bulbs are indispensable in the early garden and should be liberally planted as soon after September 15th as possible:

Daffodils	Hardy Lilies	Hyacinths	Tulips
-----------	--------------	-----------	--------

October All tender plants, such as geraniums and coleus, must be potted for house culture. This is the best time to plant evergreen trees, rhubarb and asparagus. Gather in winter squash and pie pumpkins, placing in cool cellar.

November Hardy Japanese bulbs are not available until in November. These four should find a place in every garden:

Lilium Auratum	Album	Rubrum	Tiger Lily
----------------	-------	--------	------------

The following may be potted indoors and some will be ready for Christmas:

Amaryllis	Cyclamen	Oxalis
Calla Lilies	Hyacinths	Paper White Narcissus

Mulch with straw, manure or leaves the asparagus and rhubarb beds. Place dry leaves over all the perennials.

December A few plants in the living-room make it bright and cheerful. Some of your bulbs can be brought into bloom now.

REDUCED PRICE LIST OF OUR DEPENDABLE GRADE

FLOWER SEEDS

The prices quoted this year are a real inducement to lovers of the flower garden.

WE PAY POSTAGE ON ALL FLOWER SEEDS

The flower seeds listed in our catalog are specially selected for hardiness and duration in the territory where this book is sent.

There are none of the undesirable varieties. When you order seeds from this book you can rely on getting only **dependable** seeds of merit.

For your further guidance and to make the results of your efforts more certain you will find cultural directions on every packet.

Flowers are usually known as **Annuals**, **Biennials** and **Perennials**.

Annuals bloom and ripen seed the first year and then perish.

Biennials do not generally bloom the first year and are in perfection the second year only.

Perennials flower several years in succession, many blooming the first year from seed sown early and are used for permanent plantings. See Gardener's Calendar on page 18.

For price list Perennials, see page 28.

Hardy Perennials and **Biennials** may be sown either in early fall or spring and require no protection through the winter. **Hardy Annuals** may be sown either in late fall or spring. They often self-sow in the fall.

Half Hardy Annuals, **Biennials** and **Perennials** cannot be sown in open ground until warm weather; they may, if desired, be started early inside and transplanted afterwards. The latter two need protection in winter or may be carried through in cold frames or greenhouses.

ANNUALS

In this list we include both annuals that bloom, then die, and several tender perennials that bloom freely the first year.

Cultural Leaflet on Annuals, Free When Asked For

	Pkt.
Acroclium, cut green for Everlasting Flowers, mixed; ¼-oz., 15c....	\$0.05

 Morning Glory, Imperialis, Japanese, large, mixed; ½-oz., 25c..... .10

For Hardy Perennial Roots and Bulbs,
 see pages 41 to 45.

FLOWERS WITH SUITABLE STEMS FOR BOUQUETS

African Daisy	Calliopsis	Nigella	Sweet Sultan
Aster	Cosmos	Salpiglossis	Zinnia
Bachelor Button	Marigold	Scabiosa	
Calendula	Nasturtiums	Sweet Peas	

NASTURTIUMS—Dwarf

Nasturtiums may well be classed among the handsomest and most showy annuals. They are of very easy culture and give a continuous bloom. We list only the best varieties.

	Pkt.
Beauty, scarlet splashed with canary, green leaves; oz., 20c.....	\$0.05
Bronze, reddish golden bronze color, foliage dark; oz., 20c.....	.05
Empress of India, very dark leaves, with crimson flowers; oz., 20c.....	.05
Golden King, pure golden yellow, dark foliage; oz., 20c.....	.05
King Theodore, velvety red flowers, dark foliage; oz., 20c.....	.05
Pearl (Moonlight), creamy white; oz., 20c.....	.05
Vesuvius (Salmon Queen), salmon rose with dark leaves; oz., 20c.....	.05
Dwarf Varieties, Mixed, "Dependable Grade"; lb., \$1.25; ¼-lb., 50c; oz., 15c; ½-oz., 10c.....	.05

NASTURTIUMS—Tall—Giant Flowered

Tall varieties should be trained to climb fence, strings or trellis, growing 6 to 10 feet. Our stock is superb and includes Madam Gunter's varieties.

	Pkt.
Black Prince, velvety dark purple flowers, dark foliage; oz., 15c.....	\$0.05
Dunnett's Orange (Sunlight), bright orange color; oz., 15c.....	.05
Heinemanni, chocolate color, very odd; oz., 15c.....	.05
Pearl (Moonlight), creamy white; oz., 15c.....	.05
Prince Henry, amber yellow spotted with scarlet; oz., 15c.....	.05
Regelianum, rich crimson with violet shade; oz., 15c.....	.05
Tall Varieties, Mixed, "Dependable Grade"; lb., \$1.00; ¼-lb., 40c; 2 oz., 25c; oz., 15c; ½-oz., 10c.....	.05
Nigella (Love-in-the-Mist), mixture of blue and white; ½-oz., 15c....	.05
Nicotiana, Sanderea Hybrids, white, deliciously fragrant; ¼-oz., 25c....	.05
Ornamental Grasses, many kinds mixed by us; ⅛ oz., 20c.....	.05

PANSIES

Pansies are successfully grown from seed even by the novice; however, we would recommend that where only a small bed is desired you get our full blooming plants. Ready in April.

	Pkt.
Giant Trimardeau; the Giant Flowering Varieties are best for general bedding, are most hardy and bloom early and late; separate colors; ⅛-oz., 60c	\$0.10
King of Blacks, jet black.	Giant Purple, purple.
Emperor William, blue.	Snow Bird, pure white.
Prince Bismarck, bronze.	Golden Yellow.
Giant Trimardeau, Mixed; ⅛-oz., 50c.....	.10
One packet of each above seven varieties Pansy Seed for 50c.	
Good Mixed; ¼-oz., 75c; ⅛-oz., 40c.....	.05
Dependable Giant Market, our very best strain; ⅛-oz., \$1.25.....	.25
For Pansy Plants, see page 34.	
Passion Flower, a beautiful tender climber, sky blue.....	.10

PINKS

	Pkt.
Chinesis, Double Chinese, many colors, mixed; $\frac{1}{4}$ -oz., 20c.....	\$0.05
Imperialis, Double Imperial, fringed, mixed; $\frac{1}{4}$ -oz., 20c.....	.05
Heddwigii, Single and Double, mixed by us; $\frac{1}{4}$ -oz., 25c.....	.05
Laciniatus, Large Single Fringed Flowers; $\frac{1}{4}$ -oz., 20c.....	.05
Hardy Garden Pinks (Grass or Clove), special mixture; $\frac{1}{4}$ -oz., 50c...	.10

POPPIES

Single Mixed, many varieties; oz., 15c; $\frac{1}{4}$ -lb., 45c.....	\$0.05
Double Mixed, includes many popular varieties; oz., 20c; $\frac{1}{4}$ -lb., 60c...	.05

Zinnia, Mammoth, in separate colors, Crimson, Flesh, Scarlet, White, Yellow; $\frac{1}{8}$ -oz., 25c.....	.10
--	-----

SWEET PEAS

The Sweet Pea is one of the most thankful flowers to be found in any garden. We have discarded all poor and inferior sorts and offer only what we know to be the cream of the list, chosen from personal inspection. Cultural leaflet free on request.

OUR DEPENDABLE CHAMPION MIXTURE

Consists of the best named varieties, also many **Unwins** and **Spencers**, all mixed by us. This mixture is decidedly different from others. We buy separately many named varieties and trial ground sorts to mix into this stock. There is positively nothing better in mixtures.

Large packet, 5c; oz. pkg., 15c; 2-oz. pkg., 25c; $\frac{1}{4}$ -lb. 45c; $\frac{1}{2}$ -lb. pkg., 80c; lb. pkg., \$1.50. All postpaid.

SILVER MEDAL STRAIN

Spencer Varieties Mixed Sweet Peas

Too much cannot be said in praise of the merit of this mixture. We arranged with Mr. Waller, a very extensive seed grower in California, to supply us stock from his Silver Medal strain, which consists of many standard varieties of **Spencers**. To this we added some separate varieties that there may be a well-balanced assortment of colors. All these make it far superior to these so-called mixed which are grown-mixed and only a few colors prevail. Our mixture is a very distinct class. It simply can't be beat.

Pkt., 5c; oz., 25c; 2-oz. pkg. for 45c; $\frac{1}{4}$ -lb., 85c; lb., \$3.00.

STANDARD GRANDIFLORA VARIETIES

All are large flowering and best of their class. The **Grandiflora** named varieties are of good colors and have many distinct shades. They are excellent for planting in quantities where color effect is wanted. We omit the names, but give distinct colors separate: **White, Scarlet, Pink, Maroon, Lavender, Blue shades, Purple, Salmon.**

Oz. pkgs., 15c; four 1-oz. pkgs. for 50c.

GRANDIFLORA MIXTURE

A very good stock of numerous colors as grown mixed by a prominent California grower.

Oz. pkg., 10c; $\frac{1}{4}$ -lb. pkg., 35c; all postpaid.

Fine Bone Meal, applied on surface of ground and worked in, is very beneficial to Sweet Peas. Lb. pkg., 10c; 5-lb. pkg., 30c; 10-lb. pkg., 50c; not postpaid.

SPENCER SWEET PEAS

The Spencer varieties are the latest and best in Sweet Pea culture. Most of them have frilled edge like illustration, and many are hooded shape. All are very large and usually four blossoms on a long stem, making them excellent for bouquets.

We are leaders in this market for quality seed and dependable varieties.

We give free a special leaflet on Sweet Pea Culture when asked for with order.

Nitrate Bacteria for Sweet Peas, 35c.

NAMED SPENCER VARIETIES

This list includes the very choicest of the popular varieties. There are many similar kinds in Sweet Peas with attractive names, but you cannot go amiss in planting any of the following. The stock is all from reliable growers in California who grow on contract for leading seedsmen. Our prices are very reasonable for the grades we supply, any following separate varieties:

Packets, 5c; $\frac{1}{2}$ -oz. pkg., 25c; oz. pkg., 40c; $\frac{1}{4}$ -lb. pkg., \$1.25.

Apple Blossom—The standards are very bright rose, wings primrose with flesh of rose tint. Very large blossom and very free bloomer. A bi-color flower similar to *Blanche Ferry*.

Asta Ohn—Best lavender Spencer grown. Comes remarkably true, producing the elegant, bold, wavy flowers in greatest profusion.

Captain of the Blues—Purplish maroon standard and bluish purple wings with veins of rosy purple make this exquisite sort one of the finest purplish blues. Well waved and crinkled.

Countess Spencer—Of perfect form, remarkable size and exquisite color, being a soft rosy pink. One of the best pinks on the market. Flowers are $1\frac{1}{2}$ to 2 inches in diameter, charmingly waved and fluted.

Elfrida Pearson—This old favorite is a lovely pink throughout, the buds and flower being tinted with salmon pink with the margins a darker pink.

Florence Nightingale—Very large, finely waved, of rich bluish lavender, enlivened by a very faint sheen of rose-pink. A much admired variety.

Illuminator—A rich glowing cerise-salmon, with an indication of bright orange suffusion, which glistens under bright sunlight. The flowers are well formed on long, stout stems.

King Edward Spencer—The largest and best scarlet to date. Wings are carmine-scarlet, reverse sides are rosy carmine. The blossoms are very large, three and four on a long, stiff stem.

King White—Undoubtedly the best white now in cultivation. Is remarkable for its immaculate purity of whiteness and the perfect finish of the flowers. Almost invariably four blossoms on a long, stout stem.

Marie Corelli—While not a new variety, we retain it for its glowing crimson, the flowers of which are beautifully waved, and admired by many growers.

Mrs. Routzahn—A beautiful blending of apricot, pink and straw color. The pink deepens to a rose near edges of wings and standard. There is no other variety just like it, and is distinct in its class. Blossoms are large and very numerous.

Othello Spencer—The darkest color we can offer in Sweet Peas, being a deep velvety maroon of very large size and beautiful form. Well hooded and shell shaped.

Primrose Spencer—Both standard and wings are of beautiful soft primrose or creamy yellow color. Flowers are in a class of their own in both color and size, being large and wavy.

Rosabelle—A beautiful deep rose with white blotch at the base of the standard and wings. The flowers are unusually bold and large, carried on a long stem.

Senator Spencer—A deep claret or chocolate, striped and flaked on a ground of light heliotrope, makes a very charming combination. Blossoms are extra large, wavy and drooping, usually four on a stem.

Thomas Stevenson—Intense flaming orange. The wings are rosy carmine, shaded orange. Beautifully waved.

White Spencer—This old favorite of pure white is still one of the best whites for general culture. It blooms profusely, and is very dependable.

Wedgewood—The best light blue, of a unique shade. The flowers are of good size, well waved and invariably four on a long stem.

EARLY FLOWERING OR WINTER FLOWERING

ORCHID SPENCER SWEET PEAS

These are a distinct strain of Spencer type flowers that bloom fully three weeks earlier than other Spencers. The original purpose in breeding up these varieties was for winter blooms in greenhouse, which has made wonderful change in sweet pea culture indoors. It was soon discovered that these same varieties would do equally as well in our gardens by producing fine, large blossoms considerably in advance of other strains. Thus it is we recommend them for garden culture as well as for florists indoors.

Per pkt., 10c; ¼-oz., 35c; ½-oz., 60c.

Early Asta Ohn—A very desirable lavender, the color being same as Asta Ohn Spencer.

Early Blanche Ferry—Has the combination of bi-colors as in the ordinary Blanche Ferry, but larger and early.

Early Bohemian Girl—Deep pink wings; the standard is orange blush.

Early Heather Bell—Rich mauve, changing to mauve-lavender.

Early Liberty—Mr. Morse pronounces this a grand sun-proof crimson.

Early Meadow Lark—Rich cream, well waved, duplexed.

Early Morning Star—Deep orange-scarlet with rich orange wings.

Early Mrs. A. A. Skaach—Bright shell pink, extra large and very much liked by the florists.

Early Rose Queen—One of the best pinks and a leader in the flower shops.

Early Snowflake—Pure white, large waved and extra long stems.

Early Song Bird—Soft pale pink with buff-white background.

Early Songster—Glant waved lavender.

Early Venus—White with blush pink wings.

Early Warbler—Rich mauve purple.

Early Yarrawa—Bright rose-pink, duplexed. This is the original variety introduced from Australia, being parent to many of the new race of early flowering varieties.

PERENNIAL FLOWER SEEDS

All are hardy in Colorado except where so stated. A very few are biennials—bloom in the second season, then die. Several tender perennials that bloom first year by starting indoors are listed with annuals.

†Requires the third season for blooming.

We pay postage on all Garden, Flower and Tree Seeds

NURSERY DEPARTMENT

We have excellent facilities for supplying goods in this line. Let us book your orders early and ship the stock as wanted. No extra charge for packing.

VEGETABLE PLANTS

PRICES DO NOT INCLUDE POSTAGE

Our facilities are unequalled in Denver for ability in supplying strictly first-grade plants. Our stocks are true to name and properly cared for. Our prices are right for dependable plants. We are not competing with cheap, haphazard lots. If must be sent by mail, add 5c per dozen, 25c per 100. We do not favor sending any vegetable plants by mail. It is difficult to keep them in good condition in a mail pouch; express is best.

	Per 12	100	1,000
Early Cabbage, Seedlings; ready in April.....	\$0.15	\$0.60	\$4.50

Hyacinths, Tulips, Narcissus and other Hardy Bulbs for fall planting are all described and priced in special catalog that will be ready in August.

STRAWBERRIES

All Postpaid Except by 1,000

Strawberries are a hardy plant; they do well in almost any soil or climate and are almost entirely free from disease and bugs. Buy one-year-old plants and get them into the ground as soon as you can. Strawberry plants advertised as cheap are cheapest when let alone; buy good ones. Before planting, dip the roots in water. Set the plant with the crown or bud at the surface of the ground.

Everbearing varieties are now the leading kinds—in fact, so much can be said in favor of varieties that produce all through the summer and fall that we are discarding many so-called standard varieties and offer everbearing varieties only.

For best results with Strawberries, give all-day sunshine and apply nitrate of soda or fine bone meal fertilizer in June.

"PRIDE OF DENVER"—Everbearing

Note how five berries equal the length of box

A strictly high class large-fruited variety as shown in the illustration. Truly a Colorado product, being originated and introduced by Mr. G. W. Huber, of South Denver. For sale for first time last season. We recommend that our friends invest liberally. You can profit by having the delicious berries, then can sell plants the following season. This variety is very productive and the berries are immense in size and desirable in quality.

With every order of 50 or more "Pride of Denver" Everbearing plants, the grower will give free six of his new seedling Everbearings that are yet unnamed, to be introduced in the near future.

Prices for Spring 1921 (postpaid): Dozen, \$1.25; 50 for \$3.75; 100 for \$7.25.

PROGRESSIVE EVERBEARING

This desirable variety has been in cultivation in Colorado for several seasons. Is not a large berry but produces continuously until killed by hard freezing. A very profitable market variety.

Bunch of 25 plants, postpaid, for 75c; 100 for \$2.25; 1,000 plants, not prepaid, \$15.00.

SMALL FRUITS

NOT PREPAID. WHEN WANTED BY MAIL, ADD POSTAGE

These varieties are all of established merit and very suitable for our Western planters.

When shipping by express we can select the larger and stronger plants. Special Cultural Leaflet on Small Fruits free. Our stock is all examined by State Inspectors.

While we cannot guarantee every plant or tree to live, we do guarantee that each is in good condition when packed and shipped. Part of this risk is yours in giving proper care and culture. If ever there is a fault you think is ours write us frankly; we will do our part. We must have our customers satisfied.

BLACKBERRIES

	Each	Per 10	100
Snyder , medium size, very hardy and early.....	\$0.15	\$0.80	\$6.00
Rathburn , large, sweet and juicy, jet black.....	.15	.80	6.00
Logan-berry , an improved type of Blackberry in large clusters; dark red; plants require winter protection25	2.00	16.00

DEWBERRY

Lucretia , a variety of Blackberry that trails on the ground; has glossy black fruit of large size	.15	.85	7.00
If wanted by mail, add 5c each; 15c for 10 plants.			

RASPBERRIES

St. Regis Everbearing , produces beautiful red berries from July into September; a truly early and late variety. The "St. Regis" is in Raspberries what "Progressive" is in Strawberries.....			
	\$0.15	\$1.00	\$8.00
Cuthbert , large rich crimson, best late; very hardy..	.10	.60	4.00
Marlboro , large, light crimson, very early and firm..	.10	.60	4.00
Kansas Black , large black-cap, early, hardy (tips)..	.10	.70	5.50
Gregg , large black-cap, very productive (tips).....	.10	.70	5.50
Golden Queen , the berry is large, sweet, yellow....	.15	.85	7.00

Cherry , large, deep red, medium producer.....	\$0.35	\$3.25	\$30.00
Perfection , very large, best red currant on market...	.35	3.25	30.00
White Grape , creamy white, medium size, mild.....	.35	3.25	30.00
Black Currants , very hardy and productive but small	.20	1.50	12.50
If wanted by mail, add 5c each; 20c for 10 plants.			

GOOSEBERRIES—Western Grown

Downing , large pale green, very sweet, hardy.....	\$0.40	\$3.50
Houghton , pale red, medium small fruit, hardy....	.40	3.50
Oregon Champion , brownish-red, medium size, quite sweet, very productive; almost an Everbearing	.40	3.50

GRAPES

	Each	Per 10
Concord , standard black, very hardy; best for Colorado.....	\$0.35	\$3.00
Brighton , fine large berries; the best red for the West.....	.40	3.50
Niagara , a popular white, large bunches, tough skin.....	.40	3.50

If wanted by mail, add 5c each; 25c for 10 plants.

Book: Amateur Fruit Growing, by Green, cloth, 75c, postpaid.

CHOICE FRUIT TREES

Our No. 1 stock of Fruit Trees average too large to be handled satisfactorily by mail. Should go by express or freight. We make no charge for packing. Cultural leaflet free.

APPLES

Grow more apples in your own yard. Plant several trees this year.

Prices: All varieties, average No. 1, 4 to 6 ft. **Each, 90c.**

Delicious, true stock, large, dull, dark red; very juicy; one of the best.

Gano, very hardy and suitable for the West; a beautiful red color.

Grime's Golden, good size, golden yellow color; good keeper and shipper.

Greening, Northwestern, a popular winter variety, greenish yellow.

Jonathan, dark red color, medium size, extra quality; very popular.

Winesap, Stayman, large deep red; excellent keeper; best in winter.

Northern Spy, large, bright red and very hardy; quite late.

Red Astrachan, large, deep crimson, crisp and juicy; for summer only.

Yellow Transparent, white, tender; very early summer.

SIBERIAN, Crab, large red; exceedingly hardy; suitable for Colorado. **Each, \$1.00.**

CHERRIES

The sour cherries do splendidly in the West, while sweet ones are seldom a success. All cherries much higher in price this season.

Prices: All varieties, average No. 1 stock. **Each, \$1.40.**

Early Richmond, clear, bright red, very early; quite acid; good canner.

Montmorency, late but large, best sour red; very hardy and productive.

English Morello, dark red, almost black, medium size; slightly acid.

Royal Ann (Napoleon), large pale yellow; hardiest of the sweet varieties.

PEARS

We do not encourage planting Pears in this part of Colorado. However, we can supply the following popular varieties, 4 to 5 ft. **Each, \$1.00.**

Bartlett, large pyramidal shape; juicy and sweet; a favorite variety.

Clapp's Favorite, large, pale yellow; best early for our climate.

PEACHES

The following freestone varieties do reasonably well in our lower altitudes. Stocks are No. 1, 4 to 5 ft. **Each, 75c.**

Crawford's Early, large yellow, of excellent quality.

Elberta, large, yellow; a leading market variety; late; quite hardy.

Russian Apricot, the hardiest and worthy of corner of garden. **Each, 75c.**

PLUMS

Our varieties are suitable, even for the dry farmer's crops. All varieties of select trees, average 4 to 6 ft. **Each, \$1.25.**

Abundance, large bright red with yellow flesh; firm and sweet.

Damson, Shropshire, deep purple; fine for preserves; popular; very hardy.

German Prune, large, dark blue, firm flesh; excellent for preserving.

Improved Wild Goose, clear bright red, sweet and very juicy.

Lombard, oval, violet red, flesh yellow, good size; great bearer.

QUINCE

Our two-year-old trees are 3 to 4 ft., well branched. **Each, \$1.00.**
Orange, golden yellow flesh, good flavor; reliable; long keeper.

HARDY HEDGE PLANTS

NOT PREPAID

We recommend only varieties that are hardy and thrive in Colorado. There really are but few varieties that are suitable.

PRIVET

The true **Amur River** stock of Siberian variety, acclimated here, thrives and makes handsome hedge. Our stock is 18 to 24 in. **Dozen, \$2.25; 100 for \$16.00.**

The California Privet is not hardy in Colorado.

BARBERRY

Japanese Thunbergia, makes excellent low hedge and also fine for shrub; stock is 18 to 24 in. **Each, 25c; doz., \$2.50; 100 for \$19.00.**

LILACS

The common Purple and White Lilacs when properly trimmed and trained make a very satisfactory and attractive hedge, especially for this locality, where many hedge plants are not hardy.

Ask for price of suitable plants.

SHADE TREES

In our Western cities the demand for good, shapely specimens of Ornamental Shade Trees is greater than the supply of really home-grown, acclimated stock. The prices depend much on the particular trees, thus we quote approximately.

We have arranged with a reliable nurseryman to supply a limited number of the popular varieties. We are not prepared to set the trees. At these prices we deliver in the city or pack for out-of-town customers. We sell for cash and can make no guarantee further than trees shall be alive, in good condition, when delivered from us.

Ash , American White, the Western hardy, 6 to 8 ft.; each.....	\$1.25
Cottonwood , the new cottonless variety, 6 to 8 ft.; each.....	1.00
Elm , American, a standard for Colorado, 6 to 8 ft.; each.....	1.25
1½ in. diameter; each.....	2.00
Maple , Silver Leaf, Soft, 1½ in. diameter; each.....	2.00
6 to 8 ft.; each.....	1.25
Mountain Ash , very ornamental, 5 to 6 ft.; each.....	1.50
Poplar , Carolina, very quick grower, 6 to 8 ft.; each.....	1.00
1½ in. diameter; each.....	1.50
2 in. diameter; each.....	2.00
Poplar , Bolleana , 8 to 10 ft; each.....	2.00
Poplar , Lombardy , grow upright, tall, 8 to 10 ft.; each.....	1.00
Honey Locust , Thornless. Our stock is strictly Colorado grown, produced from second generation of acclimated trees. You will be pleased with this tree. Can supply in several sizes.	
Size 3 to 4 ft., tall, straight center; each.....	1.00
Size 5 to 6 ft., well branched and shapely; each.....	1.50
Size 7 to 8 ft., well branched and shapely; each.....	2.50

MULBERRY

The Russian Mulberry of properly grafted stock produces good fruit, and usually in abundance, with but slight attention. Plant several amidst your orchard to keep the birds busy from eating other fruits. 6 to 8 ft., large and vigorous. **Each, 65c; 3 for \$1.50.**

INSPECTION—Our Trees are all properly inspected by the State Entomologist and a proper certificate of inspection accompanies each shipment.

COLORADO BLUE SPRUCE

The most beautiful of all our native trees. Stock grown in this state is shipped to all parts of U. S. Ours are mountain grown, carefully removed with a ball of native soil wrapped around the roots. Ready in October, also early April. Place orders in advance.

Average about 24 inches tall, good shape; each, \$2.00.

Average about 30 inches tall, good shape; each, \$2.50.

Average about 36 inches tall, heavy, well shaped; each, \$3.00.

SUMMER BEDDING PLANTS

We supply from our store nearly all the popular and easily grown plants for bedding. On account of cost of production—greenhouse space, fuel and labor—we do not give prices here except for our specialties. Ask for new list to be ready about April 1 that will include Antirrhinum, Coleus, Daisies, Dracenas, Geraniums, Heliotrope, Lobelia, Marguerites, Petunia, Salvia, Verbenas, Vincas.

The following we have growing from select seeds that we recommend as being the best obtainable.

ASTERS

These plants are grown expressly for our trade from Bodgers' strain of Giant Branching Comet Aster seeds that is highly esteemed by many gardeners. We supply plants separately in colors.

White, Pink, Lavender, Crimson, Purple, Light Blue, ready in May and June. Per doz., 50c; per 100, \$2.50.

Average Mixed Colors, grown mixed. Per doz., 40c; per 100, \$2.00.

If by mail, add 10c per dozen.

PANSY PLANTS

The seed is selected from certain selected plants and saved expressly for these plants, which were started last fall and now are in protected cold-frame beds, ready for coming out in bloom in April. Our stock is from the famous "Denver Giants" that are prize-winners. Best ever—none better.

Each plant is wrapped so that bloom shows; will keep nicely for days.

Per doz., 50c; 100, \$3.00.

If by mail, add 15c per dozen. However, ship by express when possible.

SUMMER FLOWERING BULBS

ALL BULBS ON THIS PAGE ARE PREPAID

Amaryllis

AMARYLLIS

- Formosissima**, Jacobean Lily, beautiful dark scarlet; does well in pots or open ground; must be taken up in fall; each.....\$0.25
- Johnsonii**, very large red bloom with white stripes; this is the grandest and giant of all Amaryllis; each50

CALADIUMS—Elephant's Ears

For best results should be started indoors in March.

- Medium size bulbs, dormant; require plenty sunshine; 2 for 35c; each.\$0.20
- Jumbo size, very large; grand for center of bed; 3 for \$1.00; each..... .35

CALLAS

- Yellow Calla**, a beautiful yellow; does well in pots; each.....\$0.35

CYCLAMEN

- Giant Persicum Strain**, assorted colors; fine bulbs; each.....\$0.25

CANNAS—All Up-to-Date Varieties

Special Cultural Leaflet on Cannas free for the asking.

Prices: Single bulb, 20c; 12 for \$2.00, unless otherwise priced.

Allemania, spotted orange, large, orchid-flowering, green leaf; 3 to 4 ft.

Burbank, bright lemon yellow with red spots, green; 4 to 5 ft.

Colossal, an enormous scarlet flower, giant of all; 4 to 5 ft.

Flambeau, green foliage, vermilion orange; 5 to 6 ft.

Indiana, orchid flower of fiery, velvety orange, green leaf; 5 to 6 ft.

Johanna Kansleiter, green foliage, cream and rose flower; 3 to 4 ft.

King of Bronzes, rich red, bronze foliage, giant growth; 5 to 6 ft.

King Humbert, large scarlet, streaked gold orchid, bronze; 4 to 5 ft.

Louisiana (Penn.), large deep crimson, crinkly edge, green; 5 to 6 ft.

Moonlight, a good white, green foliage; 4 to 5 ft.

Madame Seibert, green foliage, scarlet and gold flowers; 4 to 5 ft.

Mme. Elida Bertie, yellow, spotted with pink, green foliage; 3 to 4 ft.

Mephisto (Black Prince), darkest red of all cannas, green; 3 to 4 ft.

Queen Helen, numerous large yellow flowers, spotted red; 4 to 5 ft.

Venus, combination of pink and gold, lovely, green leaf; 3 to 4 ft.

West Grove, deep cerise pink with green foliage; 4 to 5 ft.

UNNAMED CANNAS, in assortment; each, 10c; 12 for 85c.

CANNA NOVELTIES—25c EACH

Flag of Truce (Niemen), white, dotted with red, green leaf; 4 to 5 ft.

Mrs. A. F. Conard, sea shell pink with green foliage; 3 to 4 ft.

GLOXINIAS

Are especially suited for indoor pot culture. We have secured a supply of bulbs from selected strains, mixed varieties. Each, 35c.

PLANTING TABLE FOR THE

Squash, Late.....	Hubbard, Delicious... Purple Top Strap	May	90-110	48 hills	72-84	..
Turnip	Leaf, White Egg..	May-July	50- 90	2-4	12-18	20

Varieties marked for "hills" should have three or four healthy plants left, all weak plants
Egg Plants, Peppers and Tomatoes can be most profitably handled by purchasing the plants
Special cultural advice on any crop or variety will be cheerfully given on application.

INSECTS AND PLANT DISEASES

Plant enemies are of two kinds—insects and diseases. The former are of two kinds, (a) those which suck the juices therefrom. Plant diseases also are of two kinds, (a) those which attack the whole organism of a plant and are termed "constitutional." The matter can be reduced to the following classification:

PLANT ENEMIES

INSECTS		Class
Eating		a
Sucking		b
DISEASES		
Parasitical		c
Constitutional		d
REMEDIES		
MECHANICAL		No.

For Prices of Insecticides, see page 50.

OME VEGETABLE GARDEN

Amount of seed for 100 feet row	Depth to plant (inches)	
1/2 pound	1-2	For successive crops, sow every two weeks.
2 ounces	1/2-1	Sow early varieties every two weeks. Use when small and tender.
1 packet	1/2-1	Put collars on plants to protect from cut worms.
1 ounce	1/2-1	For continuous crop, sow bi-weekly.
2 packets	1/2-1	Cauliflower needs cool, moist soil in order to mature.
1/2 ounce	1/2-1	It is best to cover vines early in season with mosquito netting to protect them from depositing eggs on the vines.
1 1/2 pound	1-2	Plant every two weeks for successive crop.
1 ounce	1/2	} Lettuce can be planted in seed boxes indoors in April and transplanted when weather permits. Protect plants from mid-day sun in hot weather.
1 ounce	1/2	
1 ounce	1/2-1	} Plant as soon as ground is thoroughly warmed or start in seed boxes indoors.
1 ounce	1-1 1/2	
1 ounce	1/2-1	Can be sown indoors in March. For transplanting cut tops a third and roots a quarter.
1 pound	1	Onion Sets are preferable where large onions are wanted.
1 ounce	1/2-1	Much improved if kept in ground through winter. Give mulch.
1 1/2-2 pounds	2-3	The late crops are subject to mildew if given too much water.
1 ounce	1	Plant when ground is warm or start in seed box.
1 ounce	1	Crops mature in 25 days. Successive planting every week.
2 ounces	1/2-1	Sow seed thickly.
1/2 ounce	1/2-1	} Dust leaves with lime or nicotine to keep squash bugs away.
1 ounce	1-1 1/2	
1/2 ounce	1/2-1	Do not plant later than August 1st. Use while young.

oved.
uitable size for setting out in May and June.

ES—HOW TO FIGHT THEM

of two kinds, (a) insects which chew or eat the leaves or fruit; (b) insects
ose which result from the attack of some fungus or germ; (b) those which
medy to be used must depend upon the nature of the enemy to be fought.

.....	a	4

By using this table the gardener will be able to tell at a glance the method of fighting any enemy the presence of which is known or anticipated. The list is formidable, but most of the pests mentioned probably will not appear.

Many Denver gardeners report the destruction of tender young plants by the cut worm. The cut worm is perhaps the most annoying of all garden pests. He works at night, attacks the strongest and healthiest plants and is content simply to cut them off, seldom eating much. The quickest and best remedy in small gardens in hand-picking. The worms may be found at night with the aid of a lantern, or early in the morning. In daytime they can be found by digging about the soil wherever cut worm work is found.

One of the best methods where only a few plants are put out, is to protect each by a collar of heavy or tar paper.

PLANTING TABLE FOR THE HOME VEGETABLE GARDEN

Kinds	Suitable Varieties	Times of Planting for best results	Time to first maturity (days)	Distance between plants (inches)	Distance between rows (inches)	Number of Seeds to sow per foot	Amount of seed for 100 feet row	Depth to plant (inches)	
Beans	Stringless Green Pod, Golden Wax.....	May-June	50- 70	3-5	24-36	8-12	½ pound	1-2	For successive crops, sow every two weeks.
Beets	Egyptian, Early Blood Turnip	April-June	60- 90	2-3	12-18	20-40	2 ounces	½-1	
Cabbage (Plants)...	Early Winnigstadt, Hollander	April-June	45-100	18-24	24-30	1 packet	½-1	Put collars on plants to protect from cut worms.
Carrot	Danvers, Oxheart.....	April-May	60-100	2-4	12-18	30-60	1 ounce	½-1	For continuous crop, sow bi-weekly.
Cauliflower	Snowball	April-June	60-100	18-24	24-30	2 packets	½-1	Cauliflower needs cool, moist soil in order to mature.
Cucumber	Long Green, White Spine	May-June	65- 80	24 hills	36-48	½ ounce	½-1	It is best to cover vines early in season with mosquito netting to protect them from depositing eggs on the vines. Plant every two weeks for successive crop.
Corn, Sweet.....	Golden Bantam, Evergreen	May-June	70-100	18-24	36-42	½-1 pound	1-2	
Lettuce, Head.....	Big Boston, Hanson, Prize Head.....	April-May	40- 90	4-10	12-18	10-15	1 ounce	½	Lettuce can be planted in seed boxes indoors in April and transplanted when weather permits. Protect plants from mid-day sun in hot weather.
Lettuce, Leaf.....	Grand Rapids, Simpson	April-June	30- 70	3-6	12-18	10-15	1 ounce	½	
Melon (Cantaloupe)	Rocky Ford, Burrell's Gem.....	May-June	90-100	48 hills	60	1 ounce	½-1	Plant as soon as ground is thoroughly warmed or start in seed boxes indoors. Can be sown indoors in March. For transplanting cut tops a third and roots a quarter.
Melon, Water.....	Kleckley Sweet, Gypsy	May-June	100-110	60 hills	96	1 ounce	1-1½	
Onion, Seed.....	Yellow Danvers, Red Wethersfield...	April-May	100-140	2-4	18-24	20-40	1 ounce	½-1	Onion Sets are preferable where large onions are wanted.
Onion, Sets.....	Yellow, Red, White...	March-June	25- 40	2-3	12-18	6- 8	1 pound	1	Much improved if kept in ground through winter. Give mulch.
Parsnip	Hollow Crown	April-May	120-140	3-4	18-24	20-30	1 ounce	½-1	The late crops are subject to mildew if given too much water.
Peas	Alaska, Gradus, Telephone	April-June	50- 70	1-2	24-36	12-18	1½-2 pounds	2-3	
Pumpkin	Small Sugar.....	May-June	100-120	48 hills	72-84	1 ounce	1	Plant when ground is warm or start in seed box.
Radish	Scarlet Turnip W. Tip, Icicle, Chartist...	April-June	24- 35	1-2	10-18	6-10	1 ounce	1	Crops mature in 25 days. Successive planting every week.
Spinach	Large Leaf Viroflay, Long Standing.....	March-June	30- 45	2-4	12-18	20-30	2 ounces	½-1	Sow seed thickly.
Squash, Early.....	Crookneck, White Bush.....	May-June	65- 80	36 hills	36-48	½ ounce	½-1	Dust leaves with lime or nicotine to keep squash bugs away.
Squash, Late.....	Hubbard, Delicious... Purple Top Strap	May	90-110	48 hills	72-84	1 ounce	1-1½	
Turnip	Leaf, White Egg...	May-July	50- 90	2-4	12-18	20-30	½ ounce	½-1	Do not plant later than August 1st. Use while young.

Varieties marked for "hills" should have three or four healthy plants left, all weak plants removed.
Egg Plants, Peppers and Tomatoes can be most profitably handled by purchasing the plants of suitable size for setting out in May and June.
Special cultural advice on any crop or variety will be cheerfully given on application.

INSECTS AND PLANT DISEASES—HOW TO FIGHT THEM

Plant enemies are of two kinds—insects and diseases. The former are of two kinds, (a) insects which chew or eat the leaves or fruit; (b) insects which suck the juices therefrom. Plant diseases also are of two kinds, (a) those which result from the attack of some fungus or germ; (b) those which attack the whole organism of a plant and are termed "constitutional." The remedy to be used must depend upon the nature of the enemy to be fought. The matter can be reduced to the following classification:

PLANT ENEMIES		Enemy	Attacking	Class	Remedy
INSECTS					
Eating	a	Aphis (plant lice)....	Cabbage and other plants, especially under glass.....	b	5, 8, 6
Sucking	b	Asparagus beetle....	Asparagus	a	13, 12
DISEASES					
Parasitical	c	Asparagus rust.....	Asparagus	c	11
Constitutional	d	Black rot.....	Cabbage and cabbage groups...	d	10
REMEDIES					
MECHANICAL		No.			
Covered boxes	1	Borers	Squash	b	4
Collars	2	Caterpillars	Cabbage group	a	12, 14, 4
Cards	3	Caterpillars	Tomato	a	4
DESTRUCTIVE					
Hand-picking	4	Cucumber beetle	Cucumber and vines.....	a	1, 11, 8
Kerosene emulsion	5	(striped beetle)....	Cucumber and vines.....	c	11
Whale-oil soap	6	Cucumber wilt.....	Cucumber, muskmelon, cabbage.	c	11
Tobacco dust	8	Cucumber blight.....	Cabbage, tomato, onion.....	a	2, 4, 12, 13
Corrosive sublimate	10	Cut worm.....	Potato, turnip, radish.....	a	11, 5
Bordeaux mixture	11	Flea beetle.....	Potato and eggplant.....	a	12, 13, 4
POISONOUS					
Paris green	12	Potato beetle.....	Potato	c	11
Arsenate of lead.....	13	Potato blight.....	Potato (tubers)	c	10
Hellebore	14	Potato scab.....	Radish, onions, cabbage, melons.	a	4, 3
		Root maggot.....	Squash, pumpkin	b	4, 8, 12, 5
		Squash bug.....	Plants—cucumber, tomato	b	6, 5, 8
		White fly.....	Plants	a	4
		White grub.....			

By using this table the gardener will be able to tell at a glance the method of fighting any enemy the presence of which is known or anticipated. The list is formidable, but most of the pests mentioned probably will not appear.

Many Denver gardeners report the destruction of tender young plants by the cut worm. The cut worm is perhaps the most annoying of all garden pests. He works at night, attacks the strongest and healthiest plants and is content simply to cut them off, seldom eating much. The quickest and best remedy in small gardens in hand-picking. The worms may be found at night with the aid of a lantern, or early in the morning. In daytime they can be found by digging about the soil wherever cut worm work is found.

One of the best methods where only a few plants are put out, is to protect each by a collar of heavy or tar paper.

DAHLIAS

The Dahlia is one of the very satisfactory flowers for the home flower garden. The bulbs are inexpensive, almost sure to grow and produce most attractive flowers, lasting up to frost time.

Many of the newer varieties are wonderful in size and colorings, while every one in our list is of merit. We urge customers to add a few of the newer varieties.

There are several classes of Dahlias, such as Show Dahlias, Peony-Flowered, Decorative, Cactus, Single and Pompon. We have included in our assortment some of each. You can get a very complete Dahlia garden planting from us.

STANDARD VARIETIES

Price: Each, 15c; 12 or more, all labeled, at 12½c each, postpaid.

CHOICE CACTUS-FLOWERED DAHLIAS

Clara Stradwick, clear, bright salmon, shaded yellow, large and full.

Cockatoo, color varies from pure white to yellow; 3 ft.

Crepuscle, pale orange yellow, very large; beautiful shape.

Gen. Butler, rich, velvety crimson maroon, petals tipped white; 3 ft.

Goldland, primrose yellow, perfect form, free bloomer.

Kriemhilde, pink, with white in center; good cut flower; rather late.

SHOW, DECORATIVE AND FANCY DAHLIAS

A. D. Livoni, a beautiful, soft, lovely pink, quilled, a favorite; 3 ft.

Bon Ton, many small ball-shaped flowers of deep garnet red; 4 ft.

Grand Duchess Marie, large, soft buff, overlaid with orange.

Glori de Lyon, the largest of all pure whites, a grand flower; 3 ft.

Jack Rose, brilliant crimson red, very perfect flowers; 4 ft.

Lyndhurst, a beautiful cardinal red, a fine cut flower, early; 4 ft.

Mrs. Bogge, a pleasing old rose color, large and full.

Mrs. Hartong, light fawn color, suffused with pink, very large; 5 ft.

Purple Gem, a rich royal purple, on long stiff stems; 4 ft.

Queen of Yellows, beautiful, profuse, clear yellow, early; 3 ft.

Robert Broomfield, a grand, pure white free bloomer; 4 ft.

Sylvia, soft mauve pink, changes to white in center; 4 ft.

TO KEEP DAHLIAS AS CUT FLOWERS

Cut the flowers late in evening or early in the morning, never during the heat of the day. Plunge the ends of the stems (an inch or two) in hot water for a few minutes, being careful to hold the blossoms to one side so they will not be injured by the rising steam. Then place in vase of cool water.

SPECIAL DOLLAR DAHLIA COLLECTION

Each season we have a number of bulbs of varieties that are so similar to others that we plan to discontinue, also there are some where labels become removed or lost. All these we sell at reduced prices by putting up assortment of ten good bulbs in a box, all for \$1.00, postpaid.

Why not order a box sent direct to some worthy friend?

NOVELTIES AND NEWER VARIETIES

SPECIAL-MERIT DAHLIAS

In this list you get the very cream of choice varieties. The tubers are all properly labeled. Please do not judge the merit of the flower by the size of the bulb, since some of the very best are extremely small bulbs.

All these bulbs are sent postpaid.

	Each
Berch von Heemstede , Decorative, large pure yellow, long stems.....	\$0.25
Countess of Lonsdale , Cactus, an exquisite shade of rich salmon with a tinge of apricot at the base of the petals; free flowering.....	.25
Delice , Decorative, a glowing rose pink, long stem; one of the most popular pinks, keeps a long time; a good cut flower; 4 ft.....	.25
Giesha , Peony-flowered, the showiest and most attractive of this type, petals very long, curved and twisted, a rich combination of scarlet and gold, shaded to amber yellow; queen among Dahlias.....	.50
Golden Gate , Cactus, a large deep golden yellow flower; extra fine....	.25
Golden West , Cactus, superb flower of exceptional size, often 7 inches across; stems long and rigid, holding the flower to full view; color, golden yellow, shaded to pure yellow in center; has no superior50
Hortulanus Fiet , Decorative, a colossal flower over 8 inches in diameter, of the most delicate shade of shrimp pink, the tip of each petal barely touched with gold; the entire flower has a suffusion of delicate tints of red and yellow, which gives a glow yet softness of color of great charm.....	.50
Hortulanus Witte , Decorative, a large pure white flower held erect on good long stems; a splendid cut flower.....	.50
Jessie Seal , Peony-flowered, a unique color in the Dahlia family, clear old rose, a pleasing and popular shade; flowers very large and of ideal peony form; stems often 2 feet in length, yet strong and erect; no better general-purpose Dahlia grown.....	2.00
Kalif , Cactus, truly majestic flower, frequently measuring over 9 inches in diameter, of perfect Cactus form; in color a pure scarlet; the habit of the plant is all that can be desired; the gigantic flowers, which are produced very freely, are held erect on strong, stiff stems, making it a most effective and useful variety for cutting as well as for garden decoration.....	1.00
Le Grande Lilas , Peony-flowered, an immense royal purple, holding its slightly twisted broad petals erect on strong stems often measuring 20 in. long; a wonderful Dahlia.....	1.00
La Grande Manitou , Decorative, variegated, ground color white, spotted, striped and blotched with deep violet, stiff stem; 3 ft.....	.25
Mrs. H. J. Jones , Cactus, large, rich scarlet with cream colored edge..	.25
Princess Juliana , Decorative, "White Delice"; a superb white Dahlia, in form much like Delice but longer in stem and freer in bloom..	.25
Riese von Stuttgart , Decorative, a gigantic flower, deep purple red, very attractive, robust in habit.....	.25
Romola Pizzana , Peony-flowered, yellowish salmon, very large and free blooming on fine stems; one of the best.....	.25
Snowdon , Cactus, exquisite snow white, long pointed narrow petals..	.25
The Rose , Show, a profuse bloomer, holding its immense American Beauty-like flowers erect on long, stiff stems.....	.25
Twentieth Century , best of the Single Dahlias; opens a rosy crimson, shading to white; a beautiful clematis-like flower.....	.20
W. W. Rawson , Show, pure white overlaid with delicate lavender, large, on long stems; improved Grand Duke Alexis.....	.25

Others of Mr. Wilmore's Novelties can be supplied promptly.

Send in your order early for Shrubs and Hardy Plants. They are then sent out soon as weather is suitable. You get them when they will do best.

When you want a real good Singing Canary Bird, consult us. We have them.

DEPENDABLE HARDY ROSES

Our 2-year-old outdoor-grown Roses are all from one Western grower. Each plant is grown on its own roots, thus making them doubly desirable for Colorado. Roses on their own roots are worth two and three times the ordinary grafted stock. Varieties in capital letters are our very specials.

Special Cultural Leaflet for Hardy Roses free.

Stock is ready in April and May.

Prices: **Each, 75c; 5 for \$3.50**, except where otherwise priced. Rather large to mail satisfactorily; if must be mailed, add 10c each.

REDS

AMERICAN BEAUTY (H. P.), bright crimson, the largest and sweetest of all hardy roses. Should be in every garden. Each, 90c.

Anna de Diesbach (H. P.), clear bright carmine, finely shaped, good full size and very fragrant.

Francis Scott Key (H. T.), large deep red, excellent cut flower. Each, 90c.

General Jacqueminot (H. P.), a very free growing, brilliant crimson, with fine medium large blooms; outlives many other varieties.

Glorie de Margottin (H. P.), clear dazzling red, blooms are large and symmetrical and deliciously sweet-scented.

GRUSS AN TEPLITZ (C.), richest scarlet, shading to a velvety crimson, fragrant, strong grower.

HOOSIER BEAUTY (H. T.), beautiful, well-shaped, long buds, a perfect flower of intense crimson scarlet.

Jon. J. L. Mock (H. T.), deep pink to cherry red; has long stems.

PINKS

La France (H. T.), a standard variety of silvery rose color.

MRS. JOHN LAING (H. T.), soft pink of good form, exceedingly fragrant and free bloomer; always does well.

Ophelia, delicate tint of salmon-flesh, shaded rose.

Pink Killarney (H. T.), one of the best bright pinks.

Paul Neyron (H. P.), (Pink Karl Druschke), dark rose color of enormous size; considered the largest of outdoor roses; very hardy.

WHITE

FRAU KARL DRUSHCHKE (H. P.), well called the White American Beauty. It is a large, beautiful snow white, superb.

White Killarney (H. T.), pure snowy white.

YELLOW

Soliel d'Or (A. B.), beautiful orange yellow, very strong grower; each, 90c.

SUNBURST (H. T.), flowers are medium size, color is a soft yellow with orange-yellow center; a very attractive rose. Each, 90c.

GREENHOUSE GROWN POPULAR ROSES

The following varieties: Gruss an Teplitz, Hoosier Beauty, Pink Killarney, White Killarney, Brilliant Killarney, La France, Ophelia, Sunburst.

Each, 50c; 5 for \$2.00

HARDY CLIMBING ROSES

For porches and arbors nothing surpasses these Climbers. They are everblooming and very hardy.

When placing Climbing Roses avoid planting on south of brick or stone wall. They suffer too much from extremes of heat and cold, often starve out for want of moisture and soil nourishment, invariably become weakened and take on mildew. East wall will do, though trellis is best.

Prices: Each, 75c, not postpaid.

CLIMBING AMERICAN BEAUTY. A true American Beauty, large red flower on a climber. A remarkably beautiful climber, hardy and seldom mildews.

CRIMSON RAMBLERS. Small, bright crimson flowers in clusters. The most popular of all Climbers. Thrives under nearly all conditions.

Dorothy Perkins. Similar to Crimson Rambler, except is pink blooms.

White Rambler. Similar to above, only white in color.

Yellow Rambler. Similar to above, except is yellow.

BABY OR DWARF POLYANTHUS ROSES

Suitable for pots and border bedding. All are two-year-old. **Prices:** Each, 75c, not postpaid.

Crimson Baby Rambler. The very best crimson dwarf and is a perpetual bloomer. Grows about 12 to 15 inches.

White Baby Rambler. The true dwarf type with a great profusion of small white flowers; fragrant and hardy.

POPULAR CLIMBERS—Bulbs

POSTPAID

All do well in Colorado.

Apios Tuberosa (Tuberous Rooted Wistaria), deep purple wistaria-like flowers, perfectly hardy and increase from year to year; grows 8 to 10 ft.; each, 15c; 4 for 50c.

Cinnamon Vine, small white fragrant flowers; green, glossy foliage; grows 15 to 20 ft.; average size tubers, 10c each; first size tubers, 15c.

Kudzu Vine, like the famed Jack-and-the-Bean-Stalk Vine; it grows quick with large leaves that cover big area; fine for old trees, arbors, etc.; perfectly hardy; select tubers; each, 40c.

Madeira Vine, waxy green leaves, fast growers if warm location, tender; small tubers, 3 for 15c; 12 for 50c; select large tubers, each, 10c; 3 for 25c.

HARDY CLIMBING VINES

NOT POSTPAID

	Each
Ampelopsis, Engelmanni, quick growing; clings to brick, stone or wood; makes beautiful covering; free from insect life; for porches, etc.; better than Boston Ivy.....	\$0.40

GRASS SEED SOWERS—We carry an assortment. See page 57.

TESTED SEED CORN—Not Postpaid

Most of our supply is Colorado-grown, and all is carefully tested for germination.

Price: Single lb., 15c; 2 lbs., 25c.; 10 lbs., 90c; 25 lbs., \$1.75. If wanted by mail, add postage.

White Australian, 90-day flint, hardiest of all field varieties.

Swadley, 90-day dent, kernels are yellow-white, ears blunt end, well filled.

Colorado Yellow Dent, 90-day dent. A Colorado production that is a sure cropper, good size ear, reasonably safe on dry land.

Minnesota No. 13, 90 to 95-day. Is similar in appearance to Colorado Yellow Dent; however, is a greater producer and highly recommended by our Agricultural College.

Parson's White Dent, 90-day, best white dent for Colorado, hardy.

Pride of the North, 95-day dent, yellow; Eastern seed.

Iowa Silver Mine, 100-day white dent, heavy yielder, for ensilage.

Corn Planter, Diamond Rotary, assorted discs; complete, \$2.50.

Corn Planter, Acme, adjustable, old style but good; each, \$2.00.

"OFF SEASON"

To many farmers and gardeners the year just past may seem to be a great disappointment. Be encouraged in the prospect for better returns another year. We have seen these ups and downs many times—the reverse is likely to occur in grain values, also vegetables such as cabbage, etc., next year.

Do your share of planting each year—you will reap good returns.

SEED POTATOES

Don't quit Potatoes this season because they are cheap. They may be much higher next year. Seasons go this way, and we recommend planting liberally.

It is early to quote prices for large lots. Write us when you are ready to buy. Small lots we supply as follows, to be ready in April and May: 4 lbs., 25c; 20 lbs., \$1; postage extra.

Early Ohio, the popular pink variety, oblong shape, the most sure to do well in small gardens and on village lots.

Russett Burbank, or Netted Gem, oblong, white skin, shallow eyes, netted; very mealy and fine for baking; heavy producer.

Peachblow, or Red McClure, a good general crop variety, late.

Chas. Downing, large white, medium early, general crop.

Mammoth Pearl, the standard, large white, excellent for dry land.

We expect to have a supply of Irish Cobbler, Bliss Triumph, also Colorado Dry Land Ohios.

STERLINGWORTH NO-SCAB destroys the potato scab; costs 40c per pint bottle, not prepaid.

FORMALDEHYDE for use on potato seed. One pint bottle, 60c. Trial size bottle, 25c.

FERTILIZERS

Dependable Lawn Fertilizer, our own formula, contains 5 per cent ammonia, 9 per cent available phosphoric acid, 2 per cent potash, with other valuable plant foods. SEED SOWERS AND PLANTERS

Cahoon's Patent Hand Seed Sower—For sowing alfalfa, clovers, wheat, oats, barley, rye, grass seeds, etc. The seed is held in a tight sheet-iron hopper surrounded by a bag which will hold 30 to 50 lbs. of seed. This is suspended by a strap from the operator's neck and held in position by a strap around the waist. The seed is thrown from 8 to 20 ft. on each side of the operator. Weighs $8\frac{1}{2}$ lbs..\$5.00

Each

Little Wonder Broadcast Seed Sower—Though not as large as Cahoon's, it will do similar work and be just as satisfactory where moderate area is to be seeded. Is especially good for sowing timothy, clover, alfalfa, etc. Weighs $3\frac{1}{2}$ lbs..... 2.00

The Cyclone Seeder—Larger and greater capacity than Little Wonder; 30 to 40 acres can be sown in a day. Weighs 5 lbs..... 2.50

Rotary Corn and Bean Planter—The new Diamond pattern has discs that provide for dropping the different size seeds. Drops automatically and works perfectly. Weighs 8 lbs..... 2.50

Acme Corn Planter—Has screw adjustment for dropping different size kernels. Weighs 7 lbs..... 2.00

Eureka Seed Drill—A small wheel arrangement to work with one hand for sowing garden seeds in small beds 1.70

Master's Little Giant Plant Setter—Built quite expressly for use in setting cabbage, tomato, celery and other similar plants. Complete, with full directions 6.75

BABY CHICKS

Purchasing "day-old chicks" is now the popular, surest and cheapest way to get young stock.

A chick is a chick while an egg is a chance.

You should plan your wants several weeks ahead and let us have your orders in advance, so that the little fellows may be gotten off the day after hatched.

We ship in light, ventilated, non-crowding boxes, which should go by express; however, shipments by parcel post usually go through satisfactorily.

Write us about your wants.

We will do our best to please you in every respect, but cannot guarantee safe arrival of live stock. However, very seldom is there any loss in transit.

CANARY BIRDS AND BIRD SUPPLIES

Our birds are all strong and active. Every singer we sell has been tested and known by us as a singer. State the amount you wish to pay and leave the selection to us. The value of a bird is not in the plumage. All birds are graded as to singing qualities and range of notes.

Hartz Mountain Strain, \$7.50, \$8.00, \$9.00, \$10.00 and \$12.00 each.

Roller Stock, bred from imported birds, \$10.00, \$12.00, \$14.00 and \$16.00 each. **Imported Roller Males**, \$15.00 to \$20.00 each.

Linnetts, Colorado bred, \$10.00 and \$12.00 each.

Females, Mixed, \$1.50 and \$2.00 each.

Females, Yellow, \$2.00, \$2.50 and \$3.00 each.

Females, Roller Stock, \$3.00 to \$5.00 each.

We pack and deliver to express office, Denver. They usually carry safely anywhere in U. S..

PARCEL POST INFORMATION

SEEDS BY MAIL.—We send by mail or by express prepaid all orders for flower seeds and for vegetable seeds. We do not pay postage or express charges on field seeds, clovers, grasses, bird seeds, tools or plants except where so stated.

THE PARCEL POST rates are as follows: Owing to the convenience of having mail brought to your door by the rural delivery system, it is well to take advantage of the low rates.

20 pounds anywhere within the city limits of Denver for 15c.

20 pounds one hundred and fifty miles, 24c; and 1c for each additional pound up to 70 pounds.

Nothing heavier than 50 pounds may be mailed farther than 150 miles in one package.

ZONE RATES.—When it is required that postage be added to the purchase price of any commodity, note the distance you are from Denver, see in which Zone you live. It is then easy to estimate the exact amount of postage required or ask your postmaster.

PARCEL POST ZONES

DOMESTIC PARCEL POST RATES

On Seeds, Plants, Bulbs, Tools, Etc.

Within the U. S. and Possessions

	First Pound or Fraction	Each Additional Pound or Fraction

Here is the List

Beans, Stringless Green Pod. The best early round green podded variety. Is perfectly stringless, very productive.

Beans, Golden Wax. This improved strain is yellow flat pod, stringless; very early.

Peas, Early Alaska. Is positively the earliest and hardest variety. Smooth seed. Dwarf growth.

Peas, Telephone. Produces large long pods, well filled with very delicious sweet peas. A leading variety.

Sweet Corn, Golden Bantam. The best and sweetest of all corns. Is exceedingly dwarf and very early.

Sweet Corn, Early Evergreen. Is equal to large Evergreen in quality yet much earlier. Hard to beat.

Beets, Early Blood Turnip. The standard for turnip shape and earliness. Very sweet, and is productive.

Beets, Swiss Chard. Makes best greens and continues to produce fresh leaves all summer. Every home garden should have this healthy vegetable.

Cabbage, Early Dwarf Flat Dutch. Medium early, round heads, especially suitable for home use.

Cucumber, Improved Long Green. This variety makes best for slicing and the small size make excellent pickles. Best one variety for all purposes.

Carrots, Denver's Half Long. Is of good orange color, medium size and suitable quality to please all.

Lettuce, Denver Market. Has wrinkled leaves, makes semi-head. Good for early and also for late.

Lettuce, Improved Big Boston. The best head variety, being large and productive. Very popular.

Cantaloupe, Rocky Ford. This popular green-flesh variety is superior to any other cantaloupe grown.

Onion, Denver's Yellow Globe. The standard yellow for home and market. Excellent keeper.

Onion, Large Red Wethersfield. A large flat variety that is sure to produce and mature perfectly.

Parsnip, Hollow Crown. The standard variety, being large, productive and excellent quality.

Parsley, Champion Moss Curled. A nicely curled leaf variety of medium dwarf growth.

Radishes, Early Scarlet Turnip with White Top. Very early, tender and beautiful in appearance.

Radishes, French Breakfast. Olive shape with white tip, medium early.

Radishes, Icicle. Long white, medium early and usually very crisp.

Spinach, Large Leaved Viroflay. The best variety for abundant yield and good quality.

Squash, Yellow Summer Crookneck. This early bush variety is the leader for early use. Best producer.

Turnip, Purple Top Strap Leaf. The most popular for early use; a sure producer.

Turnip, White Egg. For fall and winter use this is the standard and most popular in Western markets.

FLOWER SEEDS

No garden is complete without a few of the easy growing and popular varieties of Flowers to brighten up the corners. We include **Five Very Choice Varieties** that are sure to please.

Asters, Branching Varieties, Mixed. You get a good assortment from a leading American grower.

Cosmos, Early Flowering, Mixed. This strain is medium tall; produces popular colors.

Mignonette, Grandiflora. The old favorite, very fragrant and liked by all.

Nasturtium, Dwarf Mixed. This mixture contains all popular shades of large blooms.

Sweet Peas, Spencer Varieties, Mixed. This orchid-flowered type is the perfection of sweet peas.

Why not do a favor to your friends by making them a present of this Big Assortment of seeds for their gardens? Do it early, by ordering us to mail direct to any address—we pay the postage "anywhere on earth."

Names of customers on our list this season will receive our future catalogues, including our **Price List of Bulbs for Fall Planting** that will be mailed next August. You should have a copy. It tells all about how to succeed with Dutch, French and Japanese bulbs indoors and outdoors.
